

## 'Safari Slumber' Sleepover at The Jackson Zoo!

**Friday, November 4th, 2011**

**Program starts at 7pm Friday and ends at 9am on Saturday**

Have you ever wondered what goes on outside after you are tucked into bed? Explore the zoo at night and discover why some animals prefer the night, and what tools they use to survive until dawn.

The Jackson Zoo Comes alive at night! Come see the zoo as you have never seen it before. The night will include an animal presentation, games and activities, a look behind the scenes with a keeper and a camp fire! Wake up the next morning to a continental breakfast and a guided walk around as the keepers "wake up" the zoo.
