

Zoo Moving Forward with Improvements

Upgrades planned for 2012

Thanks to support from the State and City of Jackson, visitors will see many new improvements to the Zoo this year!

A new restroom facility will replace the old, a 'Splash Pad' will be added at the front of the zoo for children to cool down in the hotter months, educational displays will be added to the Gertrude C. Ford Education Hall, and upgrades to many of our animal exhibits will begin including work to the Hippo pond, Tapir renovation and Gibbon and Amur leopard enhancements.

We are currently planning a full calendar of fantastic special events for every month of 2012.

Visit and Support YOUR Zoo!!! We look forward to seeing you soon.
